

### REMARKS/ARGUMENTS

Claims 1-34 were previously pending. As noted above, claims 1, 3, 5, 7, 9, 15, 17, 18, 21, 25, 27, 29, 31, and 33 have been amended. Support for these amendments may be found throughout the Specification. No new matter has been added. Thus, claims 1-5 and 7-34 are now pending.

Applicants respectfully request reconsideration of this application. The claims have been amended to improve form and to generalize the second wireless communication link. Applicant respectfully submits that the mode of the second wireless communication link is not required for patentability as the prior art of record fails to anticipate or render obvious other features found in the claims as previously allowed, e.g. the communication request confirmation signal, the location of the second wireless communication device, or the wired data link between the first wireless communication device and the second wireless communication device.

### CONCLUSION

In light of these remarks, Applicants submit that the application is in condition for allowance, for which early action is requested.

Please charge any fees or overpayments that may be due with this response to Deposit Account No. 17-0026.

Respectfully submitted,

Dated June 20, 2012
